

Re: the national "do not call" list

What a dumb idea. Who exactly do you think WANTS to be bothered by telemarketers? Secondly why would telemarketers take the extra time required to NOT call these numbers?

If you're on the list and someone calls who isn't supposed to call, what are you going to do? Sue? Com'on! Get real.

This is a waste of time and money. Just hang up on the telemarketers. I truly feel the news media is making this a bigger problem than it really is. Just hang up. It's a better solution than this national do not call list.

Just my 2c,

-Ed.
